## Summary

I am a Full Stack Developer with 6 years of experience. I have worked on different projects utilizing different tech stacks and skills. I am a passionate math enthusiast and good at logic building, creating algorithms & solutions and solving complex problems in no time.

- I am great at frontend development (especially CSS & Tailwind). I can design almost any kind of layout using plain CSS/Tailwind.
- Excellent at Node.js and JavaScript Modern Frameworks including React, Vue and Svelte for frontend and Express, Adonis.js and Nest.js for backend
- Good experience working with PHP including Laravel, WordPress, OpenCart and other MVC based applications.
- Good at TypeScript. Just created an npm package few days ago using Typescript & Node to minify static packages: <https://www.npmjs.com/package/package-minifier>

## Technical skills

<b>Core</b>	HTML, CSS, JavaScript, TypeScript, jQuery
<b>Frontend</b>	React, Next, Vue, Svelte, Tailwind CSS, Material UI
<b>Backend</b>	Express.js, Adonis.js, Nest.js, PHP, Laravel
<b>Database</b>	MySQL, PostgreSQL, Redis, MongoDB, SQLite
<b>Testing</b>	Jest, Cypress, Puppeteer
<b>Others</b>	Git, Typing, Docker, Bash Scripting, Apache/Nginx Configuration, JSON, Rest API

## Education

### University of Gujrat

Bachelor's degree, Computer Science

2017 - 2021

## Experience

### Fullstack Developer

Turing

Feb 2023 - Feb 2025 (2 years)

Worked as a Fullstack developer at Johnson & Johnson through Turing. I was part of a team to develop and maintain a business-critical internal application which used React + Node tech stacks and was configured to be Synced with another App based on Claris FileMaker. I worked as the primary resource for the React + Node application where I performed all the development for new features, debug & fixed issues, and maintained the documentation.

## Fullstack Developer

WADIC

Mar 2022 - Feb 2023 (1 year)

Worked as a Full-time (on-site) Senior Full Stack Developer at WADIC, a services-based company where I had the opportunity to work on a variety of projects across different domains and tech skills.

My role involved end-to-end development of web applications, where I extensively used PHP, Laravel, React.js, Node.js, and JavaScript/TypeScript. I was responsible for developing responsive frontend interfaces, scalable backend services and designing RESTful APIs.

## Freelance Web Developer

Upwork/Freelancer

Jan 2019 - Mar 2022 (3 years 3 months)

Worked as a Freelance web developer. Started as a WordPress developer and then moved towards HTML, CSS, JavaScript, and PHP (along with React & Laravel). I successfully completed several projects and gained a good reputation. I was selected as a Top-Rated Freelancer on Upwork and held this badge for over 2 years.

## Side Projects (few examples)

- **Package Minifier**

npm package (<https://www.npmjs.com/package/package-minifier>)

**Mar 2025**

Developed a npm package to pack and ship static projects easily to production. It iterates through a directory and converts all the HTML, CSS, and JavaScript files to minified/uglified version while keeping the directory structure intact.

**Skills used:** TypeScript, JavaScript, Node, Git, NPM

- **School Management Software**

**Jan 2025**

Developed school management software with proper Authentication and Login functionality for a local school in my area using React + Laravel combo.

It includes Students and Faculty Management and has modules to manage registrations, finances, progress reports, assignments, generate reports and results and much more!

**Skills used:** React.js, Laravel, Tailwind CSS, SCSS, React Context API, User Authentication, API

- **DarazScout**

Chrome Extension

(<https://chromewebstore.google.com/detail/darazscout/heffmihflilcadjdebaijhmmbccdmigg>)

**Jan 2021**

Developed a chrome extension to search products trending on a local ecommerce store. Started it just as a hobby and for my personal use and made it available for public later.

**Skills used:** JavaScript, Chrome extension Development, Browser Extension Development, jQuery, Databases, API Integration
